KET Teacher's Guides and Program Materials

www.ket.org/education/guides.htm

Ancillary print materials for the instructional videos KET carries in its catalog

KET Classroom eNews

www.ket.org/education/newsletters/

The education bulletin that caters to your teaching. Sign up for updates on specific KET content-area resources.

Distance Learning Programs

Distance Learning Classes

<http://www.dl.ket.org/>

Since 1989! KET produced high-quality, standards-based distance learning classes for middle and high school students in Kentucky and throughout the nation. Provided by KET's teachers and staff through a combination of Internet, multimedia, and personal contact, these classes give students the direct instruction and support they need. Classes are available in Physics, Latin, German, and Humanities including honors Latin and Physics courses.

Virtual Physics Labs

<http://www.dl.ket.org/physicslabs/labs/>

Recently Introduced, these fully interactive KET produced online labs are a part of our AP[®] Physics B course, and are also available to all schools for use in any course. These are ideal for filling in holes in your lab program, but can also be used in pre-lab activities, homework and for lecture/demonstration.
